The Australian Centre for International Commercial Arbitration, supported by the Australian Government, Australian Government Attorney-General's Department and Australian International Disputes Centre invites you to forums on:

## The Australian Arbitration Option

For multinational companies and global industry groups, the use of international arbitration in cross border deals is an integral part of good business practice.

With the opening of the Sydney-based Australian International Disputes Centre (AIDC - [www.disputesecentre.com.au](http://www.disputesecentre.com.au)) Australia is well placed to meet the growing demand for first-rate, cost-effective arbitration services in the Asia Pacific. This forum will showcase to Indian national and foreign companies involved in international trade the potential for Australia as a place for international arbitration, providing as it does a neutral seat with a modern international arbitration law, supportive judiciary and purpose built facilities for those involved in international arbitration.
